

## **Pre-Dental Homepage**

Dental School requires a bachelor's degree along with specific prerequisites. Students may earn a degree in anything, but the Department of Biological Sciences offers two degree programs that fulfill most of the dental school requirements: [Microbiology](#) or [Biological Sciences](#).

The pre-requisite classes for entry into the University of Mississippi Medical Center's School of Dentistry can be found here:

[Pre-Reqs](#)

In addition to course work, pre-dental school applicants must take the Dental Admissions Test (DAT) with results being sent to the Dental School. Information about the DAT and an online application are available online at <http://www.ada.org/prof/ed/testing/dat/>
